The Recycled Claim Standard (RCS) is international, voluntary standard with the purpose of ensuring the reliability of recycled content claims in products. It proves the presence and amount of recycled material in the final product through a third-party verification of the input and chain of custody which meets the ISO definitions of recycling.

-Alignment of Recycled definitions across multiple applications. - Tracking and tracing Recycled input materials. - Providing customers (both brands and consumers) with a tool to make informed decisions. - Providing assurance that materials in

the final product are actually recycled and processed more sustainably.

YOUR PLANET NEEDS YOU

**FOREST
STEWARDSHIP
COUNCIL**

The Forest Stewardship Council (FSC) is an international non-profit organization that sets standards and promotes sustainable forest management. FSC was born in 1993 from a conviction that forests have value beyond what can be seen or touched. The goal of FSC is to ensure environmentally responsible and socially beneficial management of the world's forests now and for future generations. FSC has established global standards for forest management that are verified through independent third-party certification.

Mission

FSC will promote environmentally appropriate, socially beneficial, and economically viable management of the world's forests.

Vision

The true value of forests is recognized and fully incorporated into society worldwide. FSC is the leading catalyst and defining force for improved forest management and market transformation, shifting the global forest trend toward sustainable use, conservation, restoration, and respect for all.

RPET

I WAS A BOTTLE

“RPET is produced by recycling PET plastic bottles and containers. This process involves collecting, cleaning, and melting down used PET products to create new RPET material.”
